

# GUIDE TO LANDING YOUR DREAM JOB DURING COVID-19

## THE CURRENT JOB MARKET

- The IT industry is still hiring during COVID-19. Yes! You heard me right!
- The increased supply of labor, due to COVID-19 layoffs, is causing greater competition for selected roles
- A job offer is *NOT* guaranteed, even if you are qualified and a match for the role

## NEW NORMAL, NEW EMPLOYER EXPECTATIONS

**Insider tips from industry professionals: soft skills that employers are expecting from potential candidates during COVID.**

- Communicate clearly and on time with coworkers, supervisors, and clients
- Be adaptable to the new work environment
- Maintain your productivity even while WFH by establishing a workspace and removing distractions
- Be proactive about asking for help when you need it
- Self-manage your tasks to ensure you are able to get everything done on time

# PATHWAY TO ACE YOUR INTERVIEW

## BEFORE...

- Seek an expert's help on polishing and refining your resume
- Research and learn as much about the company and the recruiter as possible
- Customize your resume for each position to which you are applying
- Test your technology before the interview

## DURING...

- Dress as you would for an in-person interview, based on the company culture
- Build a connection with your recruiter
- Maintain eye contact with the interviewer
- Ask relevant questions, but NEVER questions about salary
- Take notes in your notebook instead of typing to show your engagement

## AFTER...

- Follow up with your interviewer with a thank you note to show enthusiasm
- Inquire about other opportunities in the company if possible
- Stay connected with the recruiter/interviewer

# ADDITIONAL TIPS

## ADVICE FOR GRADUATES WITH LIMITED EXPERIENCE

- Include relevant course work and projects on your resume in lieu of professional experience
- During the interview, explain the skills you have developed through relevant project, obstacles you've overcome, and the results you've achieved in completing the projects

## STARTING OUT IN THE IT INDUSTRY

- Identify potential companies you would be interested in
- Utilize your network to learn more about roles you are interested in through "informational interviews"
- Utilize Meetup groups and communities to build your network

**SEDNA**  
consulting group

Sedna Consulting Group (<https://www.sednacg.com/>) is a minority, woman-owned small business specializing in technology services. For over a decade, we have been preparing technology professionals for the workforce of tomorrow.
